Projects:

Using photo-identification technique to monitor shark abundance in Coral Reef

Jackie Alvarez

Working period:

Summer 2015 – Spring 2018

Projects:

Using photo-identification technique to monitor shark abundance in Coral Reef

Undergraduate Volunteers

Michele Schlegel

Working period:

Spring 2016 – Spring 2018

Projects:

Using photo-identification technique to monitor shark abundance in Coral Reef

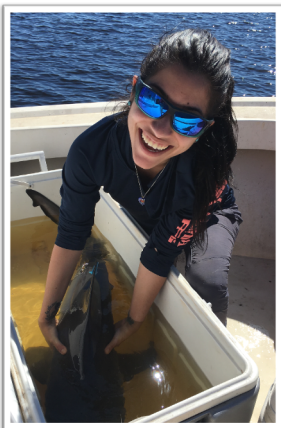

Alyson Bass

Working period:

Spring 2016 - Spring 2018

Projects:

Using photo-identification technique to monitor shark abundance in Coral Reef

Monica Castillo

Working period:

Spring 2016 - Summer 2017

Projects:

Using photo-identification technique to monitor shark abundance in Coral Reef

Undergraduate Volunteers

Bree Markley

Working period:

Summer 2017 – Spring 2019

Projects:

Using photo-identification technique to monitor shark abundance in Coral Reef

Derek Demello

Working period:

Spring 2017 – Spring 2019

Projects:

Using photo-identification technique to monitor shark abundance in Coral Reef
